

Purpose of Accounting

Complete the diagram below explaining the purpose of accounting.

Choose a company of your own choice. This should be a PLC who publishes their annual report / company accounts online.

Go through this report and make a list of all of the financial documents / statements that you find are being produced by the organisation.

A large empty rectangular box provided for students to write their list of financial documents and statements.

Now for each of those documents / statements that you have researched above, complete the table below where you may need to conduct some additional research to help you with this task.

Financial Statement	Purpose of this statement / what it shows?

Key Terms

You will have already seen a lot of key financial terms in the financial documents that you have viewed. You should complete a glossary below for each key term, recording the term and a definition for each term.

Key Term	Defined
